

SOCIAL AND PERSONAL

Good-Bye.

"Farewell farewell!" is often heard from the lips of those who part. But it springs not from the heart. It may serve for the lover's closing lay. To be sung 'neath a summer sky. But give to me the lips that say "The honest words, 'Good-by.'"

"Adieu! adieu!" may greet the ear. In the guise of courtly speech; But when we leave the kind and dear, 'Tis not what the soul would teach. Where'er we grasp the hands of those we would have forever, hush! The flame of friendship burns and glows. In the warm, frank words, "Good-by."

The mother, sending forth her child To meet with cares and strife, Breathes through her tears her doubts and fears For the loved one's future life. No cold "adieu" no "farewell" lives Within her choking sigh. But the deepest sob of anguish gives, "God bless thee, boy! Good-by!"

Go, watch the pale and dying one, When the glow has lost its beam; When the brow is cold as the marble stone, And the world a passing dream; And the latest pressure of the hand, The look of the closing eye, Yield what the heart must understand, A long, a long Good-by.

Daughters Active.

The Virginia chapters, United Daughters of the Confederacy, have already begun to get ready for the unusual activities of the year 1907. The great Jamestown anniversary, important as it is, is not the only anniversary that is to be observed, for January 19, 1907, will be the one hundredth birthday of General Robert E. Lee. His record as an American soldier and his memory are to-day the common heritage of his countrymen and his countrywomen, and the Richmond Chapter, U. D. C., will unite with the other State organizations in helping to make the coming 19th of January, that, as yet, seems far away, a great national memorial. A Virginia chapter, of which the Richmond chapter is a part, has been recently organized. "He sleeps the sleep that knows no waking, but while his memory lives, patriotism can never die."

Mrs. Smith Enthusiastic.

Mrs. Cabell Smith, fourth vice-president of the Virginia Division, United Daughters of the Confederacy, is most enthusiastic over the work of her office, and well may she be proud of what has already been done through her efforts and the co-operation of the Daughters she has visited. The new chapter at Charlottesville, the "Hamilton Wade Chapter," has one hundred and fifty applications for membership. "The New River Grays" are coming nobly to the front. "Blackburg" is doing fine. And Mrs. Smith particularly commends its officers for their good work and executive ability. "William Watts," in Roanoke, is growing every day. "Jubal Early" has gone from seventeen to fifty, and "Southern Cross," Salem, is growing rapidly, and "Allard Lee" is working hard as ever. With such evidence of growth and interest in the work, well may Mrs. Smith say she is proud of her neighboring chapters. Mrs. Smith has the honor of inaugurating the movement for a representation of the United Daughters of the Confederacy at the Jamestown Exposition. The prospect is that the Richmond Chapter, United Daughters of the Confederacy, will heartily endorse Mrs. Smith's motion.

Southern Scholarship.

The "Keystone," the official organ of the United Daughters, says: The Western College for Women, Oxford, Ohio, offers for the years 1906-1907 a scholarship of three hundred dollars, which will cover the entire charge for tuition, board and room, to a girl of Southern parentage, educated in the South, who is fully qualified to enter the freshman class. The scholarship will be awarded by competitive examination. The candidate for the scholarship should apply to the Western College through the head of the institution in which she is studying for the examination papers, which will be sent her by the college. The examination can be conducted at the institution and the answers sent to the Western College for examination. All those applying for the scholarship for next year must send in their papers before June first. The entrance requirements are the same as those of the Eastern colleges for women. The aim of the college is to give an all-round, thorough education, and courses in music and art are commended to every day. The Western College is un denominational, by charter, but earnestly Christian in character, and its founders and the majority of its supporters have belonged to the Presbyterian Church. Dr. Lillian Wyckoff Johnson is president of the college.

"ONE TOUCH OF NATURE."

By WILLIAM SHAKESPEARE.
(From Troilus and Cressida.)

For time is like a fashionable host That slightly shakes his parting guest by the hand, And with his arms outstretched, as he would fly, Grasp in the corner; welcome ever smiles, And farewell goes out sighing. O, let not virtue seek Remuneration for the thing it was; For beauty, wit, High birth, vigor of bone, desert in service, Love, friendship, charity, are subjects all To envious and calumniating time.

One touch of nature makes the whole world kin— That all, with one consent, praise new-born gauds, Though they are made and molded of things past, And give to dust that is a little gilt More laud than gilt e'er dusted.

CAPT. W. E. JUSTICE UNDER INDICTMENT

Thomas Cunningham Testifies as to Treatment of Men on Oyster Boat.

The spring term of the United States District Court was opened yesterday morning by Judge Edmund Waddill, Jr., and instructions were given to the grand jury, who retired at 11:30 o'clock. At noon the docket was called. The grand jury found seven true bills of indictment, as follows: Mary A. Ridgeway, for making false returns to the Postoffice Department; Claude W. Mason, for violation of section 3200, revised statutes; William E. Justice, for unlawfully imprisoning, beating and wounding a member of the crew of the "Daniel"; Claude W. Mason, for permitting, as United States storekeeper and gauger, a violation of the revenue laws, etc.; Vincenzo Pacini, for re-using bottle without destroying the stamp; Needham B. Wilson, for unlawfully removing and concealing distilled spirits; Needham B. Wilson, Charles L. Murray, William Dunn and Claude W. Mason, for conspiring to commit offenses against the United States, etc., and unlawful removal of distilled spirits, etc.

The case that has attracted the most widespread notoriety is that of Captain William E. Justice, who stands charged with maltreating his men on the oyster boat "Daniel" last winter. The chief witness in the case was Thomas Cunningham, who has been held in the Richmond city jail pending the investigation by the grand jury. Several other witnesses were summoned, and they all testified to the terrible conditions existing on the oyster schooner and the harsh treatment which the men received at the hands of Justice and his officers. Marshal Grant appeared in the waters of the Chesapeake last winter, and his investigations resulted in bringing to light conditions that had not been supposed to exist since the days when "shanghaiing" was the chief means by which sailors were secured. The men were never allowed to go to shore, it is alleged, and they went from bad to worse, until the evils were remedied by the tour of investigation.

Captain Justice will come up for trial in Norfolk at the next meeting of the court in that city.

RARE TREAT TO-NIGHT.

Henry Turner Bailey Speak on "Public Art Education."

The Richmond Education Association has done much for the advancement of the educational ideas in this city, and in no greater degree has it succeeded in presenting, through representative men in their special lines, the related subjects on this great question. On to-morrow night at the Young Men's Christian Association, Mr. Henry Turner Bailey will speak on "Public Art Education." Mr. Bailey is able not only by words of mouth, but by his ability as an illustrator, to fix the thoughts he presents in the minds of his audience so that they are not easily forgotten. He knows his subject thoroughly, and speaks without manuscript. He strips his address of all the affectations and indirections which usually cloud them from the apprehension of the layman, and confides to show the common sense of beauty and the value of harmony in commonplace things. His lecture is witty, out charge to the public.

"CYCLONE" RETURNS.

On Deck at Henrico Courthouse After Long Illness.

Like a refreshing breeze, Constable T. H. Samuel, better known as "Cyclone," floated into the Henrico county Courthouse yesterday, after an absence of over two months from the county seat. He has been confined to his bed by a complication of grippe and colds, and looks but little worried by his illness. He is again on deck, ready for the strenuous life of a county constable. Numerous friends kept his right hand busy yesterday with cordial greetings.

Constable Crowder, of Tuckahoe, has recently acquired the title of "Tornado" Crowder, and when his friends twist him on the new honor, he smiles good humoredly. Both constables are popular with the habitués of the courthouse.

BEFORE JUSTICE JOHN.

Minor Cases Disposed of by Great Justice Dispenser.

The case of John Lewis, a negro, who threw Mary Scott down in a fight, and broke her leg in two places, was continued in Police Court yesterday morning on account of the condition of the woman.

Thomas Johnson, the little negro, who was alleged to have stolen a turkey, didn't have the case proven against him and he went out to celebrate Emancipation Day.

George Holmes for swatting Eliza Davis, was taxed \$10, and Alfred Dudley, who did the same thing to another woman, was backed to the pen in default of the saw buck.

The drunks were told to go and sin no more.

Electrical Assistant.

The United States Civil Service Commission announces an examination to be held on May 1, 1906, at the city service examination rooms in the Bluff building on the above date, to secure eligibles from which to make certification to fill six vacancies in the position of electrical assistant, at \$900 per annum each, in the signal service at large, and in any branch of the service requiring similar qualification. As the commission has experienced considerable difficulty in securing eligibles for this position, qualified persons are urged to enter this examination.

Applicants should be familiar with the practical aspects of electricity as applied to telegraph, telephone and cable engineering, and also with the methods of testing and installing electrical instruments used in fire control, such as storage batteries, telegraphs, electric clocks, telephones, etc. This examination is open to
